

IDEAS

World map

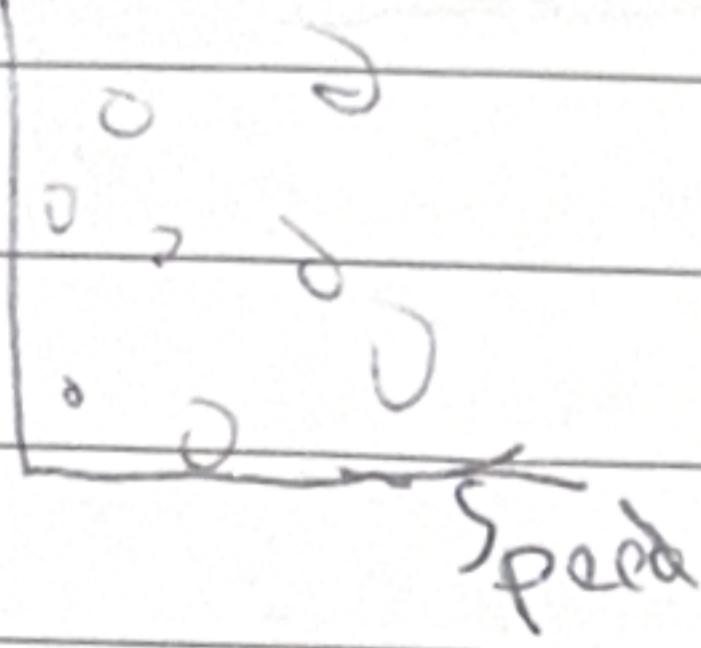

Pie chart

Stacked bar chart/layered grid

Scatterplot

FILTER

Pie chart

Tree map

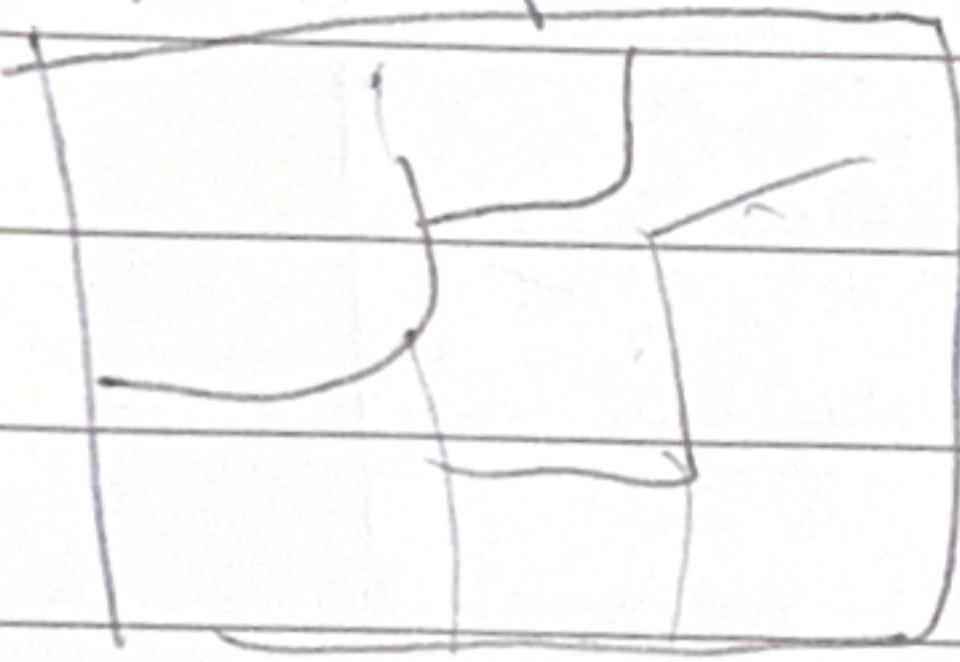

- not great for displaying country statistics

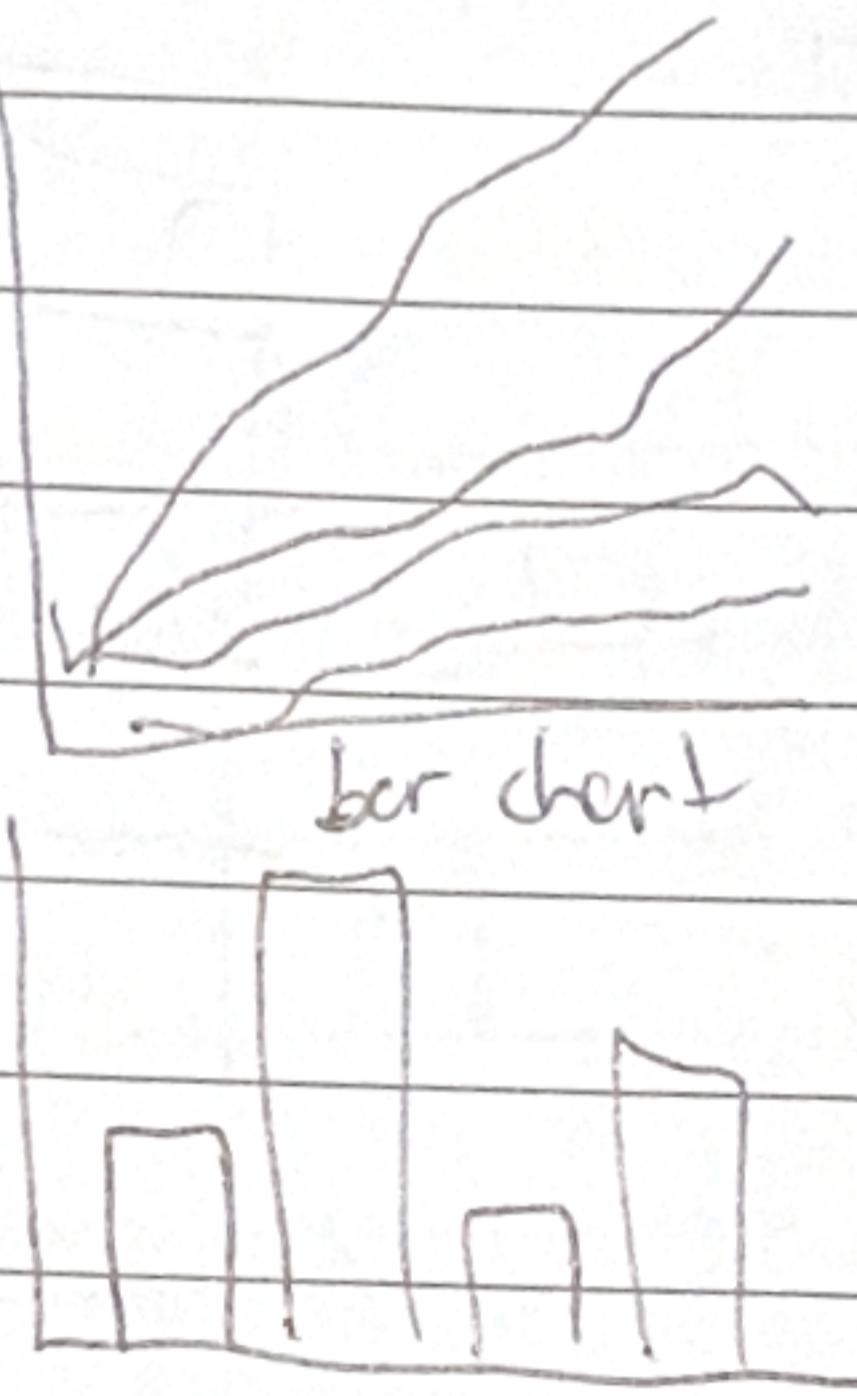

- not informative and relevant

Worldmap

Tree map

Line chart

Categorise

- Categorical: country, connection types, speed types

- quantitative: speed (average mean & median), no. of connected households

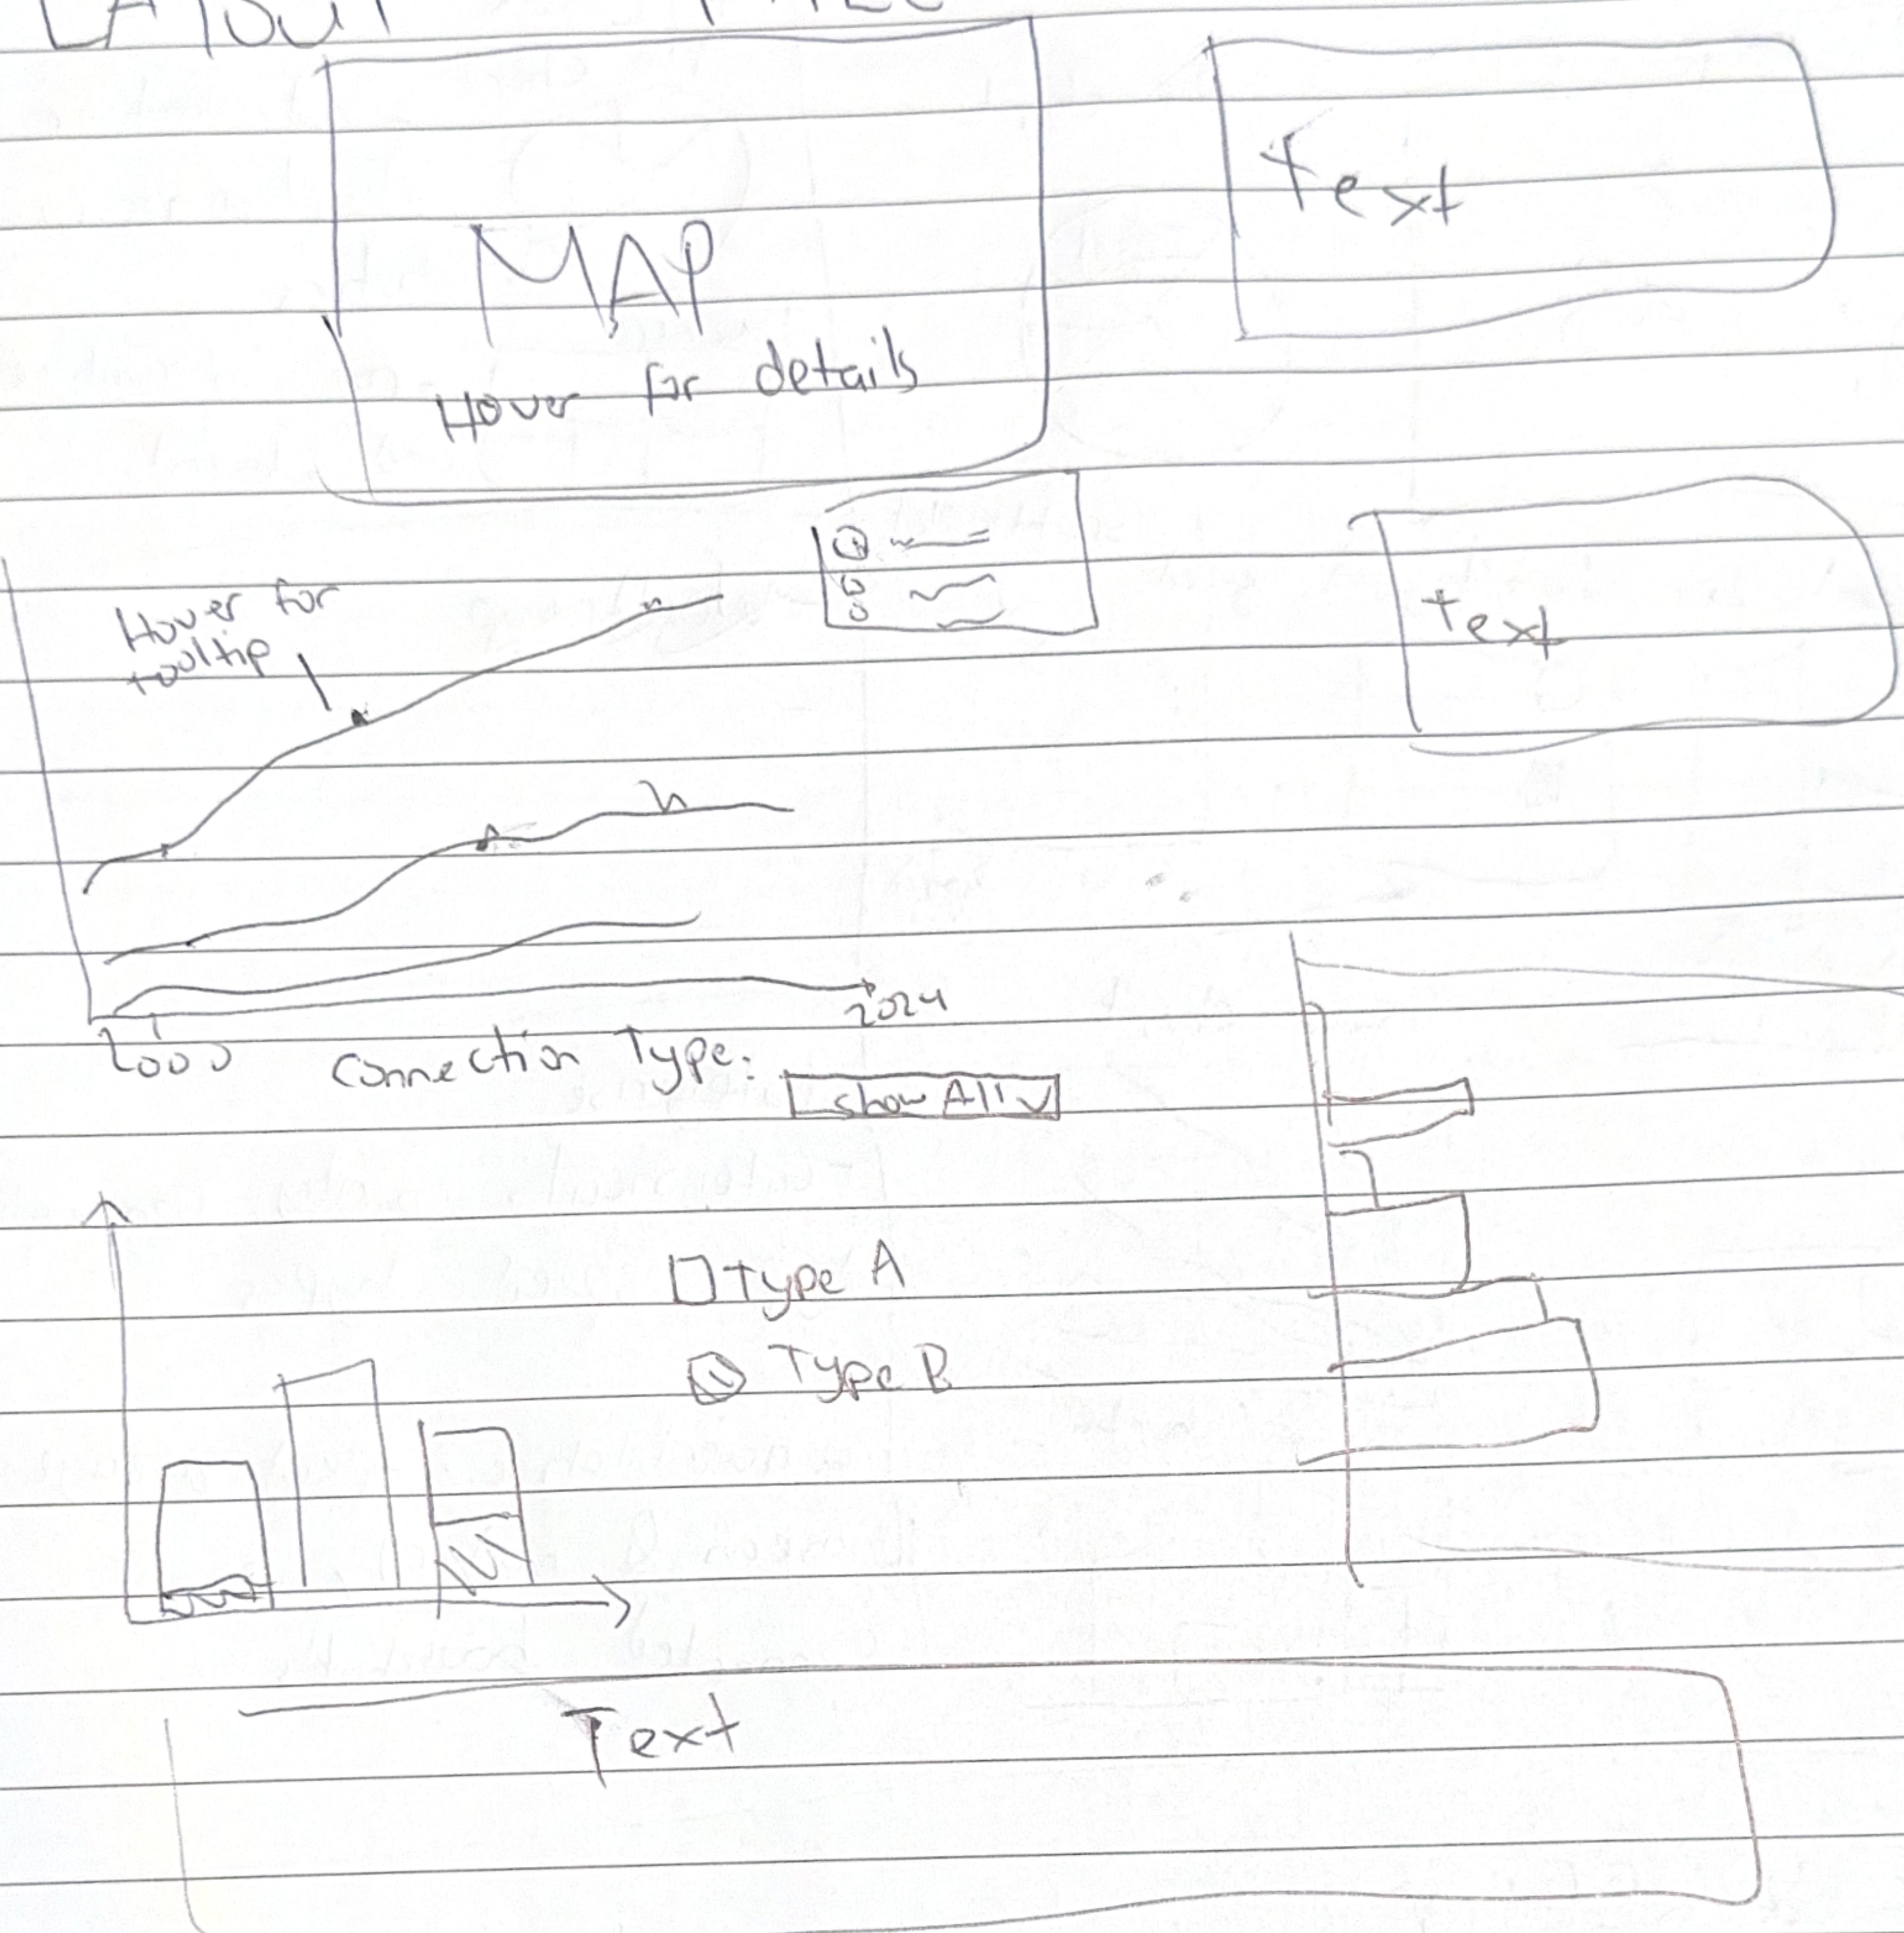

COMBINE & REFINING

- Use the world map and scatterplot, they share the same dataset fields

- Use one or the other of bar chart or stacked bar chart

- How long will this take?

LAYOUT TITLE

Focus

- The map, first one to the user will see
- Time series line graph with filtering

Discussion

- Perhaps too much text
- Map too small
